

**Gobierno de Reconciliación y Unidad Nacional
Unida Nicaragua Triunfa**

**MESSAGE OF THE GOVERNMENT OF NICARAGUA
TO THE 77TH GENERAL ASSEMBLY OF THE UNITED NATIONS**

We come to this 77th General Assembly of the United Nations in moments of extreme vulnerability and danger, which have put and continue to put Life, in all its aspects, at risk, in this World where we should instead unite to continue facing the great social, economic, climatic, cultural and security challenges to which the Human Family is exposed on a daily basis.

We come to speak on behalf of a heroic, dignified, sovereign, free People, who, together with so many other heroic, dignified, sovereign and free Peoples of the planet, have been demonstrating and exercising our national dignity and sovereignty,

faced over centuries with the avarice, the colonial and imperial greed which from Europe and from the North of this wounded Continent, has raged, attacking, intervening in, invading and occupying our Sacred Lands.

The invaders have been expelled from Nicaragua and defeated by the bravery of Nicaraguan patriotism. Our own courage has also been inspired by the great revolutionary and evolutionary liberation struggles of the admirable Peoples of this World.

In these times of brazen and violent greedy, ambitious, avaricious practices, of absurd political pretense, and their notorious, spiteful media farces, as they seek to seize our freedoms, our natural and cultural Heritage, so as to impose, something they will not be able to achieve, namely, a global society governed and administered

by those who have committed and shown off their criminality with horrifying and stunning shamelessness, amid the most tremendous looting of the riches of our Common Home.

The assault, the robbery, the disgraceful, abominable depredation, the looting and the genocides unleashed by the colonialists and imperialists of the Earth, are real crimes, such that they are the real criminals against humanity. And we denounce this in those terms!

When we appear on this last day of Sessions of this 77th General Assembly, we do so with our heads held high and our hearts full of freedom loving, fraternal, Solidarity, espousing lasting Justice and Peace, and Sovereignty and Independence that must be respected, as well as the character, a lot of character, a lot of mettle, a lot of heart, to defend what is ours.

We speak the language of a Human Community that demands recognition of our particularities, our models and ways of life, our creeds and beliefs, in accordance with our own history, tradition, and aspirations which we must make Victorious, because Life is made up of efforts, anxieties, searching and demands, of respect from each to all, and from all, to everyone.

It is time to do more to make a reality the right of the Peoples to a United Nations Organization that represents us all, one that does not submit to the designs of any imperialist power.

It is time to assert a World of dialogue and peace, of justice and solidarity, of brother and sisterhood and genuine, true goodwill, coming together despite our differences and thus enriching our consensus.

It is time to assert our multiple voices, our demands, our causes, which can no longer be ignored, nor buried under piles and mountains of idolatry of selfishness and indifference.

It is time to transcend the selfishness that murders, that kills millions of Human Beings in the World, subjecting them to the cruelty of poverty and extreme poverty, out of the barbaric, animal-like instincts of the great powers, who seek to sustain and even perpetuate their domination at the cost of hunger, ill health, climatic destruction, ignorance, war and all the darkness derived from hatred.

It's time to continue rejecting criminal blockades... all the illegal, arbitrary, illicit aggressions, the so-called sanctions, which make self-evident the perversion of an imperialist and capitalist system and model, which prevails and seeks to

continue imposing punishments, bleeding the World dry, in full view and with the patient complacency of the organisms that should defend it.

It's time to say enough to the lack of common sense, compassion and spirituality... to the appalling and utter disregard of the human condition and soul. It is time to say enough is enough, to rebel and continue to rebel against the innate evil of capitalism, which suffocates the majority while brutally enriching the few.

It is time to say enough to the hypocritical imperialism that politicizes, falsifies and denigrates the very Human Rights which they themselves violate and deny on a daily basis, imperialism and its coercive, actions against Life in all its spheres, which are contrary to international law in and of themselves.

It is time to stop, with the help of everyone, the invasions, aggressions, and occupations affecting so many territories made for the glory of God, in terms of a safe, harmonious life, with rights, with decent work, with food and sustainable and viable means to be able to affirm the well-being and happiness that we deserve.

It is time to denounce and put an end to the capital sins used to justify intervention and interference in the internal domestic affairs of each country. And it is time to assert the freedom to be ourselves, and not what others want, who demand, who wage war, seeking to displace us and continue to occupy us, so as to plunder our cultural and natural riches.

It is time to enforce the principle of the "Sovereign Equality of States" in all international

organizations and forums, so that this multi-polar, non-aligned World which we have worked so hard to bring about, becomes a reality, strengthens and grows while taking all of us into account.

It is time to ensure that the United Nations Charter, and so many organizations that should serve to bring us together, are valid for everyone and respect the rights of everyone...! Now is and should be, the time of the Peoples!

Countries that have lived through all the fires of greed, avarice, selfishness, the vainglory of vanities and the search for absolute dominion by others over a World that does not belong to them, we must all strengthen and consolidate our identities and consensus, defending together, culture, Justice based on respect and Peace, in all the relevant spaces.

Our Solidarity and committed embrace with dignified and brave Venezuela, with heroic Cuba, with the historic and noble Battles of the Palestinian People, with the Islamic Revolution of the Iranian Families; the continuing great battle of the Russian Federation, against Fascism and for Security, Integrity and Peace, which will continue, we have no doubt, to gather Victories.

Our embrace of Solidarity to the admirable resistance, and just development of the People's Republic of China, which generates so much discomfort, concern and envy among the enemies of the Common Good.

It is time to remain united with Syria, with the Sahrawi Arab Democratic Republic, with Belarus, with the Peoples of Asia, of Africa, of Our America and Caribbean, fighting all

the magnificent, momentous struggles that we are sure will result in the most sublime and supreme triumph of all time: Another World that is now indispensable and cannot be postponed!

Sisters and Brothers, In Nicaragua, **there is a Patriotic Nation, and because there is a Patriotic Nation, there is Peace...!**

In the name of our Generals of Free Men and Women, Augusto Sandino, and Benjamin Zeledon, national heroes, heroes of anti-imperialism who fill our hearts with the resolution to fight and continue to overcome... In the name of our infinite father of metaphor, of dreams and realities both worldly and heavenly, our magical teacher, the great Rubén Darío, we greet each and everyone of you and call on us all to continue fighting for Justice, Peace and the inalienable Rights of our Peoples, to

Life, Health, Strength, Hope and Faith for
the Future.

A Better World, Multipolar, Just, Ethical,
Spiritually and Materially, is already being
brought about, and we are here to continue
its creation and to defend it.

**The Sovereignty of a People
is not a matter for discussion,
but one to be defended,
with Love,
and the Sacred Flames
of Celestial Hopes...!**

Thank You Very much!

Managua, Nicaragua, September 26th 2022
